Project Name	AI Debt Relief Platform
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/BhuvanaBikkina/AI-Debt-Relief-Platform
Programming Language(s)	JavaScript, HTML5, CSS3
Framework(s) Used	React.js, Node.js, Express.js, Mongoose, Axios, React Router, React Toastify

Key Features Implemented	AI Debt Analysis, Debt Repayment Planner, Financial Dashboard, Personalized Recommendations, Responsive User Interface
Pending / Incomplete Features	User Authentication, Advanced Financial Analytics, Multi-language Support
Setup / Run Instructions	Clone the repository → Run <code>npm install</code> → Run <code>npm run dev</code> → Open <code>http://localhost:5173</code>

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:

The project follows a modular React component structure with reusable UI components and clean coding practices. It is deployed on Vercel, providing fast and reliable access. The application is designed for future scalability, allowing additional features such as authentication, cloud database integration, and advanced AI-powered financial recommendations.
