

Scalability & Future Plan

Date	3 July 2026
Team ID	XXXXXX
Project Name	AI Debt Relief Platform
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Supports a limited number of concurrent users	Performance may slow with many users	High
2	Basic data storage	Difficult to manage large amounts of user data	Medium
3	Basic AI recommendations	Advice may not be highly personalized	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Suitable for small-scale usage	Deploy on scalable cloud infrastructure with load balancing
2	Data Storage	Basic database	Upgrade to a cloud database such as MongoDB Atlas or PostgreSQL
3	Performance	Standard response time	Optimize code, add caching, and improve API performance
4	Security	Basic input validation	Add user authentication, data encryption, and secure APIs

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	User Login & Profile Management	27–29 Jun 2026	Personalized user experience
Phase 2	Advanced AI Debt Recommendations	1–2 Jul 2026	More accurate financial guidance
Phase 3	EMI & Loan Payment Tracking	2–3 Jul 2026	Better debt monitoring and planning
Phase 4	Mobile Application & Cloud Deployment	Future Enhancement	Improved accessibility and support for more users
