Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An individual with multiple debts	Repay my debts effectively	I don't know which debt to pay off first	I have multiple loans with different interest rates and repayment schedules	Confused and stressed.
PS-2	A salaried employee	Manage my monthly finances and reduce debt	I find it difficult to save money	Most of my income goes toward expenses and loan payments	Worried about my financial future

PS-3	A borrower	Understand my financial health	I don't know how serious my debt situation is	I don't have access to personalized financial guidance	Uncertain and anxious
PS-4	A person seeking debt relief	Find the best repayment strategy	Most financial advice is generic	It doesn't consider my income, expenses, and debt profile	Frustrated and overwhelmed
