Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - I have too many loans to manage. - I need a better repayment plan. - I don't know which loan to pay first.	THINKS - Am I making the right financial decisions? - Will I ever become debt-free? - I need personalized financial advice.
PERSONA NAME :RAVI <i>Salaried</i> <i>Employee with</i> <i>Multiple Debts</i>	

DOES

- Tracks monthly income and expenses.
- Searches online for debt repayment tips.
- Uses loan and EMI calculators.

FEELS

- Stressed about monthly payments.
- Confused by multiple repayment options.
- Anxious about financial stability.
